**XVI European Meeting
on Glial Cells
in Health and Disease
Berlin | July 8–11, 2023**

The European Meeting on Glial Cells in Health in Disease

The European Meeting on Glial Cells in Health and Disease invites participation from neuroglia researchers from all over the world. This meeting is the largest assembly of scientists working on glial cells and has no equivalent in the world, neither in the US nor in Asia. Having a very strong scientific community in glial research and their impact on brain diseases in Europe, the meeting is always based in Europe.

29 years after being established by an inaugural meeting in Heidelberg in 1994, the European Glial Meeting has become the world's largest and most comprehensive scientific gathering on glial cell biology and medicine. It is held every two years.

Participants are doctoral students, postdoctoral researchers, senior post-docs, senior scientists, clinicians, and representatives from the pharmaceutical industry. About 20% of the participants are students. Most participants originate from European countries, but the European Glial Meeting welcomes a large audience from North America and Asia as well.

During the congress, participants will experience and discuss seven plenary lectures, 30 symposia, a workshop and a large poster as well as technical exhibits that define and extend the cutting edges of this important field of research by presenting the most recent ideas. In particular, the large number of poster presentations, which summarise new concepts and recent findings in the field, indicate a great opportunity to establish novel collaborations between different labs in Europe and beyond. With it's about 800 expected poster presentations, which receive extensive time slots within the scientific programme, the European Glial Meeting reinforces its focus to provide a forum for students and young researchers to exchange latest research with the community.

A unique feature of the congress is the introductory course on glial biology related to brain diseases. This course provides background information for those who are new in the field or would like to enter the field. This very well attended pre-congress event attracts around 300 students, researchers from related areas, clinical scientists, and industry representatives.

Venue

Berlin is in demand worldwide as a laboratory for the future. Research, science and innovation from all nations come together here to design the life of tomorrow. The four state universities, 23 private universities, 70 non-university institutions and 22 technology parks attract an international scientific community every year.

Located in the heart of Europe, Berlin is a convenient hub for rail connections and flights. You can easily reach Berlin from almost every major city worldwide.

The XVI European Meeting on Glial Cells in Health and Disease will take place at the Estrel Congress Center (ECC), one of the largest and most modern congress, trade fair and event locations in Berlin. With 30,000 sqm of function space, the ECC offers just the right variety to host the European Glial Meeting 2023. The ECC is located in the vibrantly diverse Berlin district Neukölln – renowned for its lively mix of the old and new.

Sponsorship & Exhibition Opportunities

On the following pages, all sponsorship and exhibition opportunities at the European Glial Meeting 2023 are described in detail. In addition, we are certainly delighted to discuss tailor-made packages that suit your interests best. For tailor-made offers, please contact the meeting secretariat via email (info@glia2023.eu) or by phone (+49 351 655 73 137).

Prices / Taxation

All sponsorship and exhibition amounts are indicated as net prices and will be invoiced with an additional 19% VAT.

How to Book

All sponsorship / exhibition options can be booked via the [online application form](#). Once submitted, the meeting secretariat will contact you to confirm the receipt and clarify potential questions or discuss a tailor-made package. Subsequently, you will receive the sponsorship / exhibition agreement and invoice. In spring 2023, a detailed manual including relevant exhibition information will be provided. Please note the above-mentioned taxation information.

Assignment of Sponsorship Items and Exhibition Spaces

Sponsorship items and exhibition spaces will be assigned on a “first come, first served” basis, according to the sponsorship level and application date. Please note that sponsors, who also choose to have an exhibition booth, may choose their preferred exhibition space prior to any other exhibitor. Exhibitors may indicate their preferred positioning in the exhibition area. A preliminary floor plan is [available here](#).

Deadline for application: March 31, 2023

After the deadline all sponsorship items and exhibition spaces will be allocated to the applied industry partners (according to sponsorship level and application date). For all later requests, we will make every effort to provide the requested items but cannot guarantee availability.

Sponsors’ & Exhibitors’ Basic Benefits

Each sponsorship and exhibition package includes the following benefits:

- o Listing on the congress website and in the congress app with name, profile, logo and link to own website
- o Complimentary congress registration(s) according to booked sponsorship / exhibition package

Sponsorship Levels

Sponsorship packages may be created in a “mix-and-match”-way. Based on the final amount of support, all sponsors will be assigned to a sponsorship level. Please note that companies / institutions who solely participate in the exhibition will not be listed as sponsors.

Sponsorship Opportunities

Symposium / Industry Workshop

4,500 EUR

Companies can organise their own symposium / workshop to showcase new technologies or products to a large number of delegates. The symposium / workshop will be suitably embedded in the official congress programme. A session room with basic technical equipment* and technical support will be available. The scientific content and selection of speakers is up to the sponsor, but subject to approval by the Scientific Programme Committee. The symposium / workshop programme will be included in the online programme and congress app. To attract even more participants, the sponsor may also provide snacks and drinks to the delegates during the session at additional costs. Time frame: 45-60 minutes, max. 2 in parallel

**Included are costs for the meeting room and its technical equipment (microphone, data projector for presentation via PC, screen, laser pointer, technical support). Furthermore, in consultation with the conference organisers, the sponsor can place one advertisement for the symposium onsite and place one push message via the congress app. Registration of company staff or speakers is not included and needs to be added according to the official congress fees.*

Scientific Session Support

from 2,000 EUR

Besides plenary and keynote sessions, the scientific programme includes scientific sessions running in five parallel rooms. Interested companies may sponsor one of those scientific sessions. Kindly note: The support of a scientific session is subject to approval of the Scientific Programme Committee as well as the symposia organisers to avoid any possible conflicts of interest. The content and selection of speakers will be determined by the symposia organisers. This sponsorship item can be offered in two different options:

Basic

2,000 EUR
